\*\*Foreign language requirement: If less than 2 years of the same foreign language were taken in high school, two semesters of the same foreign language will be required for an MD S degree. If necessary, it is suggested that one foreign language course be taken in the fall of the second year, and the other in the spring of the second year.

\*\*Years three and four consist of education block courses (except MUSI 2301)- these courses must be taken in the order (semester and year) that they are presented, with no exceptions. No classes of than the ones listed may be taken in the spring semester of the fourth year- 12 hours of student teaching and Capstone only.

\*\*The above 8-semester plan does not include summer sessions. Fewer hours can be taken in the first two years if summer session are taken.
